

JULI KUMARI

Product Designer | UI/UX Designer

Bangalore, India | +91 7483026969 | juliesky94@gmail.com | LinkedIn: juli-kumari-a64648172 | Behance: julikumari24

Professional Summary

User-centric **Product Designer (UI/UX)** with **2 years of experience** designing scalable web and mobile applications across **FinTech, Healthcare, SaaS, Retail, and HRMS**. Proven expertise in **UX Research, Information Architecture, Data-Heavy Dashboards, and Enterprise Design Systems**. Hands-on specialist in leveraging **Generative AI tools (Google Stitch, Emergent, Figma Make, Microsoft Copilot)** to speed up ideation and rapid prototyping. Skilled in translating complex business requirements into high-converting, intuitive, and accessible digital solutions.

Core Competencies & Keywords

Product & UI Design: Product Strategy, User Interface Design, Interaction Design, Mobile App Design (iOS/Android), Responsive Web Design, Visual Hierarchy.

UX Research & Frameworks: UX Research, User Interviews, Journey Mapping, User Flows, Information Architecture, Wireframing, Rapid Prototyping, Usability Testing.

Enterprise & Systems: Design Systems, Component Libraries, Enterprise Dashboards, Data Visualization, Accessibility (WCAG standards).

AI-Driven Workflows: AI-Assisted Ideation, Google Stitch, Emergent, Figma Make, Microsoft Copilot, Rapid Concepting.

Tools & Technologies: Figma, FigJam, Miro, Adobe XD, Framer, Axure RP.

Professional Experience

UI/UX Designer — *Simpel.ai* Bangalore, India

May 2025 – Present

- **LUX Ecosystem Design:** Architected and designed the **LUX Ecosystem**, a comprehensive multi-platform design ecosystem including the Retail App, CRM, and Warehouse Management System (WMS), streamlining inventory workflows and reducing product discovery time.
- **JGH Amul Retail Solutions:** Designed the **JGH Amul retail mobile application and CRM platform**, focusing on improving operational visibility, order management, and overall merchant experience.
- **Data Visualization & Dashboards:** Transformed complex datasets into clean, actionable enterprise dashboards across SaaS, FinTech, and HRMS domains to enhance decision-making for business leaders.
- **Consumer App Experience:** Designed user-centric mobile applications for Healthcare, Pregnancy Tracking, and Wellness with a strong focus on accessibility, onboarding, and user retention.
- **Web Design & Conversion:** Built responsive, conversion-focused websites for AI/Robotics brands (Simpel.ai, XP Robotics, Simi.ai) by rebuilding information architecture and visual structure.
- **AI Workflow Integration:** Integrated Generative AI workflows using **Google Stitch, Emergent, Figma Make, and Copilot**, accelerating design exploration and rapid prototyping efficiency by over 35%.
- **Cross-Functional Collaboration:** Partnered with Product Managers, Engineers, and Business Stakeholders to turn product roadmaps into high-fidelity, production-ready Figma designs.

UI/UX Designer Intern — *Bridge UX Studio* Bangalore, India

Sep 2024 – Dec 2024

- **Healthcare Domain:** Designed an AI-assisted Hospital Management System (HMS) covering patient onboarding, doctor schedules, and appointment management workflows.
- **Prototyping & Flow Design:** Developed detailed user flows, wireframes, and interactive prototypes for enterprise B2B SaaS and FinTech platforms.
- **Usability Improvements:** Supported end-to-end UX research and usability testing, identifying key UX bottlenecks to optimize complex workflows.

Certifications

- ---

Advanced UX Training (Web & Mobile) — Bridge UX Design Studios
- User Experience Design Essentials - Adobe XD — Certified

Honors & Achievements

- ---

Employee of the Month — Awarded for exceptional design execution, speed, and proactive team collaboration at Simpel.ai.
- 1st Rank — Post Graduation Inter-Department Quiz Competition.
- 1st Position — Advertising & Brand Strategy Competition, Delhi University.
